Max Mangold : Aussprachewörterbuch (Duden Series Volume 10)) (Bk. 6) (German Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Aussprachewörterbuch (Duden Series Volume 10)) (Bk. 6) (German Edition):

0 of 0 people found the following review helpful. Duden is the best written German language system in GermanyBy NicoI grew up with the Duden system in German (German National). I purchased this to brush up on my mother language and to entice my hubby to maybe pick up German. I intend to use it when my son gets older in later years to raise him bilingual. It is well organized and the best written German Language learning system.0 of 0 people found the

following review helpful. Yay DudenBy bienI feel weird saying "I love it" about a pronunciation dictionary, but...it's really comprehensive and easy to use. Super helpful to have as a reference. Duden is considered pretty authoritative, so if you're torn between this and some other pronunciation dictionary, probably go for this one.2 of 2 people found the following review helpful. German Pronunciation DictionaryBy John te VeldeThis dictionary on German pronunciation is the undisputed authority in the field. It contains the most extensive list of words and provides the latest, most up-to-date transcription of their pronunciations. I would recommend it to anyone who is just interested in improving their German pronunciation, and of course to all teachers of German.

This has hardly been used. In good condition!
