National Geographic Maps - Reference : Australia Executive [Laminated] (National Geographic Reference Map) before purchasing it in order to gage whether or not it would be worth my time, and all praised Australia Executive [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Great as usual!By joshuaGreat map as always by National Geographic, the details and aesthetic nearly unmatched. I HEAVILY recommend getting this laminated version, the increase of price is definitely worth it, it keeps it safe and is overall much more durable. It may not be that much of a problem if your planning on framing it, but I would still recommend it. Awesome product!0 of 0 people found the following review helpful. It's accurate. No other qualities required in a map ...By shoisingtonIt's accurate. No other qualities required in a map [at least for me].0 of 0 people found the following review helpful. Lovely map with amazing detail and colorBy KennyGot this as a gift. Lovely map with amazing detail and color.

National Geographic's wall map of Australia is one of the most authoritative maps of the Land Down Under. The Executive map uses an antique-style color palette and stunning shaded relief that provide a richness perfect for any decor. This map features thousands of place names, including primary and secondary towns, accurate boundaries, parks and protected areas, aboriginal lands, and transportation infrastructure such as airports and highways. Australias famous coastal reefs including the extraordinary Great Barrier Reef are shown as well. Coverage also includes Tasmania and the Coral Sea Islands. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the fames can be much lighter and less expensive. Map Scale = 1:6,413,000 Sheet Size = 30.25" x 27.25"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
