**From Periplus Editions (HK) Ltd. : Australia Travel Map Sixth Edition (Periplus Travel Maps)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Australia Travel Map Sixth Edition (Periplus Travel Maps):

5 of 5 people found the following review helpful. Map does not have enough detailed information for the entire country of Australia. By Customer This map format might be great for smaller countries but it seriously lacks the detail one would look for in a driving map of a large country like Australia. A multipage road atlas would be a much better buying choice. 2 of 2 people found the following review helpful. Disappointed. By Julie Dodds Not nearly enough detail to be used as a driving map. Secondary, city maps have good detail. 0 of 0 people found the following review helpful. Five Stars. By 2romers Nice map! Great for traveling as it's coated and doesn't bend!
